

CARE AND MAINTENANCE

MetroQuartz is an extremely low maintenance surface that is not easily damaged. Following a few simple instructions will keep your countertop looking like new for many years to come.

- y Use a clean cloth or sponge with mild soap and warm water for routine daily cleaning. Be sure to rinse thoroughly, as soap residue can affect the appearance of your MetroQuartz.
- y For stubborn spots, use a soft cloth, sponge or a non-scratch scrub pad, and a mild, neutral PH, non-abrasive cleanser along with plenty of water to clean the surface. Care should be taken to not scrub too hard to avoid damage to the countertop surface.
- y For dried residue, a flat object such as a plastic putty knife can be used to gently scrape off the foreign material.
- y To disinfect your quartz countertop, we recommend using store bought disinfecting wipes and rinsing with water. A few brands that can work are: He001 de S the cs)an wp 8olc 0 lmH-to nsp, ike new
